

FTR/N

10A Froststat -5 °C ~ +15°C

3 wire thermostat with high amperage contacts, suitable for garages and other internal applications.

Features:

- 3 wire thermostat with high amperage contacts
- Suitable for garages and other internal applications
- Can also be used for ventilation control
- An accelerator is also fitted
- Universal back plate UK / European fixing specification
- Large control knob
- Neon operation indicator
- 10 Amp 240V 60Hz
- SPST. Heating
- Sensing element bi-metallic with accelerating resistance

TECHNICAL DATA	FTR/N
Control Temperature	-5°C ~ +15°C
Storage Temperature	-30°C ~ +70°C
Switching Differential	+ /- 1°C
Colour	White RAL 9010
Dimensions	80 x 80mm
IP Rating	IP20
